(51445)

Kind regards and appreciation,

Deputy Minister of Education Equivalent

Dr. Saad bin Saud Al Fahid

Preparation program for the return of the presence for Two-stage students  
(kindergarten - primary)

**Introduction:**

The Ministry of Education was keen to continue the safe educational journey

For all students of general education stages, and the attendance of students is  
back of the two stages (kindergarten and primary school) after they stop

Their schools and classroom environments due to the repercussions of the Corona  
pandemic (covid19), and emphasizing the importance of students' safety while  
and increase their motivation to interact with educational activities;

An integrated program has been prepared to prepare students for the return of  
attendance, for schools, this program is implemented in the sixth and seventh  
weeks from the second semester of the academic year 1443 AD.

We stress the importance of adhering to protocols and procedures

Precautionary for the safe return of students since their entry to the  
school and even leave it, to protect themselves, and their colleagues and families,  
providing support and care to them to ensure safety and their psychological state  
is maintained, which increases their confidence themselves and helps them adapt  
and integrate school, and meditate

This program should be a procedural reference for all employees in the

Schools, and designated for school personnel to carry out the preparation process

effectively to ensure the stability of students' teaching and learning in a safe psychological, social and health environment.
