

INTERNATIONAL INDIAN SCHOOL BURAI DAH

Social worksheet -1 (2025-26) Term-1 (Class-6)

Ch-1 Locating Places on the Earth. Ch-2 Oceans and Continents

A. Mark the following statements as true or false:

1. Many plant and animal species can be found across multiple oceans. (T)
2. Events that lead to loss of life and property are handled under disaster management. (T)
3. Greenland is the largest river in the world. (F)
4. The United Nations has designated June 7 as World Oceans Day. (F)
5. All parallels of latitude have the same length. (F)
6. The length of a meridian of longitude is half of that of the Equator. (T)
7. The South Pole has a latitude of 90°S. (T)
8. In Assam, the local time and the IST are identical. (F)
9. Lines separating the time zones are identical with meridians of longitude. (F)
10. The Equator is also a parallel of latitude.. (T)

B. Fill in the Blanks

1. The ocean is everything. It covers seven-tenths terrestrial **globe**.
2. The largest **water** bodies we see on the globe called 'oceans'.
3. A large body of land is called a **Landmass**.
4. A large continuous expanse of land is called **continent**.
5. The Earth rotates 15° of longitude in one **hour**.
6. The 0 latitude line is called the **Equator**.
7. Lines of latitude run **parallel** to the Equator.
8. The Prime Meridian passes through **Greenwich**.
9. The Earth is divided into **24** time zones.
10. 90° North is the location of the **North Pole**.
11. Lines of latitude and longitude form a **grid**.

C. Answer the following:

1. Define Flora and Fauna.
2. what is a map?
3. What is ocean?
4. What is the difference between local time and standard time?
5. What are the five oceans of the world?
6. How does latitude effect climate?
7. What is the significance of oceans and continents in the Earth's ecosystem?
8. What are the main types of maps?
9. Why is it 5:30 pm in India when it is 12:00 noon in London?
