

INTERNATIONAL INDIAN SCHOOL BURAIDAH

Worksheet For The Academic Year 2025-26

CLASS: IX SUBJECT: Mathematics DATE: 20/05/2025

LESSON-6 Lines & Angles

1) Prove that ' If two lines intersect each other the vertically opposite angles are equal'.

2) If two lines AB and CD intersect at O , find the values of x, y and z.

3) AB , CD and PQ are intersecting lines and $\angle POA = 5y$, $\angle QOD = 2y$ and $\angle BOC = 5y$ then find the value of y.

4) If OA , OB , OC , OD are four rays , Prove that $\angle AOB + \angle BOC + \angle COD + \angle AOD = 360^\circ$.

5) If $AB \parallel PQ$ and $PQ \parallel CD$ such that $\angle MOQ = 55^\circ$ and $\angle OND = 140^\circ$, Find $\angle OMB$, $\angle CNO$ and $\angle NOQ$.

6) If $AB \parallel CD$ and $\angle PQC = 140^\circ$, find x , y , z & w .

7) If $\angle PQR = \angle PRQ = 75^\circ$ then prove that $\angle PQS = \angle PRT$. Also find $\angle PQS$.

8) In the figure find $\angle TRS$, $\angle TRU$ and $\angle PRQ$.

9) In the given figure find 'm' and 'n' such that $m = 2n$.

10) If $PQ \parallel RC$, $RC \parallel TU$ and $y:z = 7:13$, find the value of x .

- 11) AB and CD are two mirrors placed parallel to each other. An incident ray PQ strikes the mirror AB at Q, the reflected ray moves along the path QR and strikes the mirror CD at R and again reflects back along RS. Prove that $PQ \parallel RS$. If $a = 30^\circ$, find the value of y .

- 12) In the figure $AE = AO$ and $BO = BC$ and $\angle COD = 135^\circ$. Find $\angle BOC$, $\angle AOE$, $\angle AOB$ and $\angle AEO$.

- 13) If $l \parallel m$ and if $\angle 1 = 75^\circ$ then find the measure of $\angle 3$, $\angle 4$, $\angle 5$ & $\angle 8$.

- 14) If $AB \parallel CD$ and $CD \parallel EF$ and also $EA \perp AB$ and $\angle BEF = 65^\circ$ then find a , b and c .

15) If AB and PQ intersect at O and $\angle AOQ = 45^\circ$, $a:b = 8:7$ then find c.

ANSWERS

2) 48° , 21° , 84°

3) 15°

5) 125° , 40° , 40°

6) 70° , 40° , 40° , 70°

7) 105°

8) 45° , 80° , 45°

9) 57° , 28.5°

10) 117°

11) 30°

12) 45° , 27° , 108° , 27°

13) 75° , 105° , 75° , 105°

14) 115° , 115° , 25°

15) 135°
